

ABSOLUT DISTRIBUTION – Building Bridges for your Success

ABSOLUT is the top-selling Huawei distributor in Switzerland

ABSOLUT Distribution has been focusing exclusively on Huawei solutions since 2013 and, as a Swiss value-added distributor, focuses on supporting of our partners.

ABSOLUT's successful growth with Huawei solutions in Switzerland was again rewarded by Huawei this year, 2021, with the «Distribution Partner of the Year» status for the 6th time.

ABSOLUT Pre-Sales Consulting for successful projects

The ABSOLUT team has the highest number of Huawei certificates within a single company in Switzerland and has many years of in-depth ICT know-how. This enables us to provide our partners with comprehensive advice and support in the development of complete solutions with the best price-performance ratio. The focus is on professional consulting in the design and implementation of Huawei solutions, which are used by enterprise and carrier customers.

ABSOLUT is an official service partner with the high CSP4* status

ABSOLUT Distribution stands for first-class Swiss service – true to our motto «Building Bridges for your Success», we offer you professional and rapid support so that you can be successful.

Huawei's 7x24 support centres offer the full range of support from next-business-day response time to on-site support within 4 hours. With the CSP4* status, ABSOLUT also achieves better purchasing conditions with Huawei solutions from which ABSOLUT partners benefit.

ABSOLUT is an official Huawei Authorised Learning Partner (HALP)

At the ABSOLUT Training Center in Urdorf, we offer a wide range of official Huawei training and certification. The training courses are sales, pre-sales and post-sales staff.

In addition to the official training courses, you can also book customized training courses, workshops and certifications for your employees.

We attach great importance to a practical exchange of experience and thus develop new solutions together.

Our partners benefit from unlimited access to high-calibre knowledge and many years of experience of proven experts, as well as from continuous know-how transfer and best practices.

ABSOLUT is an official Person VUE test centre and can therefore also take the official Huawei exams.

ABSOLUT operates the largest Huawei warehouse in Switzerland

With its own extensive warehouse in Dietikon, ABSOLUT also ensures that delivery times and availability for our partners are coordinated and optimal. This means that orders can be processed more quickly and 24-hour delivery times can be guaranteed.

ABSOLUT provides the largest pool of Huawei demo devices

At ABSOLUT Distribution, we do everything we can to help you complete and implement projects successfully - in our demo pool we offer a wide selection of Huawei systems for testing and Proof of Concepts (POC).

ABSOLUT has a highly efficient China/Switzerland logistics system

ABSOLUT Distribution works very closely with international logistics companies and efficiently moves freight containers to optimise import and logistics costs. ABSOLUT's partners benefit from the low logistics costs achieved in this way.

ABSOLUT Financial Services

ABSOLUT Distribution offers you flexible purchasing and payment options at favorable conditions. We are also happy to help you to find a suitable financing solution within our partner network.

ABSOLUT B2B Online Shop

To enable our partners to check our promotional prices and stock availability around the clock, ABSOLUT availability, ABSOLUT Distribution provides a B2B online shop.

This enables an efficient and quick verification of possible Huawei models for a current project, fast availability and highly competitive prices.

We would be very happy to assist you with any questions you may have! Contact us today:

ABSOLUT FAST-TRACK PROMO:

3000 Huawei Switches in the Absolut warehouse!

Everything has to go out! Lowest prices in Europe!

NEW SWITCHES

Huawei switches are part of the next generation of Huawei's simplified Ethernet switches from Huawei.

The simple web interface also enables efficient commissioning for everyone.

Of course, all switches are «fully managed» and thus, by means of CLI, which is similar to the CISCO syntax, so they can be put into operation intuitively and simply.

The switches can be ordered in different versions, such as; iStack clustering, QoS, VLANs, MPLS, VxLAN, L2, L3 and other features.
